Biographical Information:

Ashtar is an ascended master, an Elohi angel (not Elohim) from planet Ashtar, who currently calls Venus his home. He has had lives in the Pleiades system and on Nibiru. Arguably he is the most recognizable extraterrestrials as his image shows up often in ET circles. He is one of the most imitated in dark programs so be careful if you find yourself speaking to an Ashtar.

Ashtar's mate is Athena, granddaughter to the Athena who resides in our mythology.

Lord Ashtar and Sananda are in charge of the Universe Neadon, which is this one. Every universe is comprised of the collective consciousnesses of all who reside within it, so you would have to be extremely trustworthy to command such a position. Ashtar reports to Jesus, his commander who he calls Sananda but who we know as Jesus from his incarnation here.

Ashtar is Captain of the Galactic flagship Jerusalem and commander of 10 million extraterrestrial forces working to liberate earth.

Ashtar had one earth incarnation as Pacal Votan, a Mayan who wrote the "Popol Vuh," which is included in the channeled book by Elizabeth Trutwin. He has told me that he was behind the Mayan ascension to the fourth dimension. This happened in Antiquity, not in the timeframe before modern man where Mayans conducted blood rituals.

He is of the violet flame which you often see depicted in his palm.

Commanding but caring, he channels messages of love and light to all upon this planet.
