

## ET Profile

Name:	Kyloni
Race:	Arcturian
Home Planet /Star:	Arcturus
Dimension:	8th
Distance from Earth:	36.7 light years
Calling:	Counsel member
Service to Earth:	help in earth's ascension
Earth Incarnations:	By 2025, she will incarnate in the U.S.A. as Kyla

### Biographical Information:

The first time I spoke to Kyloni, she put in a Request for Contact with the people of earth. This is very important because those who are telepathic are actually re-connecting this world with our brethen out in the cosmos and in different dimensions. That's the way life is actually supposed to be lived – with help from beings in higher dimensions, not the way we live it now – by learning through experience not to make the same mistake again. Intuition and ET and angelic guidance are part of being a human!

Kyloni also told me that she's due to be born on earth, somewhere in the United States before 2025. Her name will be Kyla.

Me: What is it that you're to come to earth to do, as Kyla?

K: In fact to re-connect the Arcturian council of 8D with your people. That's the main task, anyway.

Me: Ah. Yes, because you're asking me now to reach out to people to have them try to contact you and so this is just in its infancy, isn't it?

K: We have much to impart to your people. About who they are, about who we are, and about how we have interacted in the past on your planet. Your world is rich with history that you have no idea about and the energetic links must be set up and re-invigorated with Light.

Me: So are there people doing this now?

K: Suzanne Lie for one is speaking with us already. She is a well practised channeler and holder of Arcturian DNA herself. There are others but there is much to impart. You all will play a part in this, so many of you are already re-linking to your galactic brethren and telepathically relaying information which will in fact trigger the DNA of the listener into remembrance. Your collective DNA holds the memories of many races and these must be reinvigorated as they are your memories of earth as well.

Me: Got it.

Are the Arcturians around the earth now? Do they have the motherships we're seeing or are they strictly GFL ships?

## IMPLANT COMMUNICATIONS

Our ships are around your world as well. We have particular tasks we need to perform on your planet. There are areas of your world that receive Arcturian energies throughout the year and they have been turned to the dark. Our job is to reverse the polarity of these energies and to re-connect your world with the portals that have been damaged and/or destroyed by the dark.

Me: Oh I see! So if Arcturus were to send energy to earth and the portals are destroyed, then it wouldn't get here?

K: Basically, yes. The portals need to be working properly in order to reinvigorate your grids and of course your grids are still being set up wrt to the 5D grid, and the 4D grids are being repaired. So your world is not receiving the full charge of energy that she could be, and neither are you as a result.

Me: Okay. Interesting.

K: It is interesting. Yes. War always damages the grids of the planet, nuclear destruction does the same – it distorts the energy grids of the planet. Your world has been artificially altered so that the grids are what you call A.I. Grids and these are being destroyed by the Light. However re-bulding the old structures is also necessary on all levels of creation.

Me: Wow. Big job!

K: Yes. Arcturians are good at working with technology that routes energy. We have the most destructive weapons of the Light fleet. Of course we use them as a last resort, judiciously.

Me: Of course.

K: How many ships do we have around your planet you are asking? In servie to your planet entirely within your solar system we have in excess of 10,000 ships.

Me: Oh wow! I can sleep better already.

K: Yes. We have many working on your liberation and re-structuring process.

Me: Do you have the name of any commander I can talk to to get some more information?

K: LOL Whatever it is they can tell you, yes. I can give you the name of Commander Tren-er-Liet. He is the supreme commander of the Arcturian fleet and works with Commander Ashtar.

Me: Yes, him I already know. LOL

K: Our technology is very different from what you know of technology and he may not be able to explain well.

Me: I tend to get basic information. I don't go into scientific detail. I don't have that kind of mind. But I cover a lot of different areas so I stick to basics.

K: Yes. A good strategy.

Very well then. Are there more questions you wish to ask of me?

Me: Yes. What do counsel members have to do?

K: For each level we have the most trusted, most integrous people of our race serve the others by holding the most prized information for our species such as our history, making decisions for our race and acting as liaisons to other worlds. We aid in the development of other peoples and this is a decision of the councils, as they must determine if we could benefit the other race at all, for instance.

Me: Okay, that's a start. Like trusted authorities.

K: Yes, we do not abuse our positions.

Me: Thank you Kyloni.

K: Thank you for inquiring, Sharon. And I am reminding all that I am open to communications with those upon planet Terra.
