### Biographical Information:

#### Navak-ei, Sirian Mothership Commander

**Mothership:** Helaclees

**Location:** British Columbia, Canada

I am located on the west coast of Canada because of the enormous negative activity in this area. Access to the Pacific Ocean is vital for the dark forces as they have many portals there, and it's my job to stop their progress.

I have what you would call a war ship with high technology. We have a good track record (this is a really calm confident man). The Pacific is a key area for the dark and we are there, waiting.

My ship also has a very large medical healing area and we often are called to assist with transport and healing of hostages.

It is always that you request a ship to fill in on your post if you are to be taken away from it. The circles must not be broken. He says he knows Commander Zorra. Team 51 loves Zorra. He's one of our favourites. Navak says he hopes to become one of our favourites too. LOL

He's involved with the current liberation of children from underground bases.

We're protecting the earth alliance forces that are raiding the bases and removing children. There are bases all through the Rocky Mountains on the west coast and as you know, at one time Vancouver was what was called, "Hollywood North," and it too has a large number of pedophile rings with children and women working the streets to earn money for the satanic cartels. Canada's Military forces are working on these underground bases in the mountains to remove these victims and we're helping out if they require it.

Arrests are being made of the humans who are involved, however as there are many who are non-humans we are involved in their arrests as well.

Me: How will that look for us?

NI: Your television will show the human aspect being arrested, perhaps a clone even being tried, but the extraterrestrial force that had overtaken the body, what they refer to as the soul of the clone, although it is no soul, it is a demonic being, a parasite which draws the energy of those they victimize in order to survive, this being will be taken by our forces and sent for trial and disposal in the galactic sun.

When I asked him if he'd ever had any earth incarnations, he said, "No!" but with a laugh. There are some who just aren't up to coming here and dealing with the crap that we deal with on the surface and I get that feeling of reluctance from many, even commanders such as Navak-Ei.
