When Will They Come to Rescue Us?

You're not going to be rescued. Being rescued is only something someone who's on the victim triangle and the victim/victimizer software programming can do. Benevolent ETs can't rescue you because they're not victims, they're not victimizers, and so they're not rescuers. This is a construction of the archontic programs and mind control. They are the victimizers.

If you believe that the benevolent ETs are going to rescue you, you are influenced by archontic mind control and not seeing it realistically. Don't think they don't know how to trick us, they do. They've stitched us up pretty good.

Benevolent ETs are personally responsible, of service to others and to God. Until you stop fearing, stop allowing archon mind control to dominate your thoughts, you're never going to understand the way benevolent Ets think, and how they plan on liberating the planet. That's why I always say “liberate” instead of rescue us. They can't rescue us. It would impinge upon our free will. You can make a choice right now – for freedom or further enslavement. It's up to you.

The only way for you is for your to free yourself from mind control. Then you can choose for the Light. Otherwise you will remain on the artificial timelines, supporting a system that hates you. Is that what you want? (Thank you Ivo, I couldn't have thought of that myself).
