Earth and The Galactic Federation: Who's Responsible for What?

~ Sharon Stewart

Since this has come up so much lately, I want to be clear about who's responsible for what. There seem to be as many opinions in this matter as there are people expressing them.

The divine goal is to liberate planet earth, remove the dark forces from this planet, to allow earthlings to continue living in a normal pattern of evolution and ascension, which includes receiving help from benevolent extraterrestrial and Light forces.

At the moment, earth (Gaia) is ascending to the fifth dimension with all who were on her. This is a trip through fourth dimensional consciousness for those going to the fifth, and for those staying in the fourth, they will stay upon fourth dimensional Gaia to continue reincarnating in duality. Those of third dimensional vibration will be, either in this life, or their next life, placed on a third dimensional planet of like vibration to their own.

Gaia initiated this process after the use of nuclear arms in 1945. Her desire was to go back to the fifth dimension from whence she came to escape the damage being done to her in the third dimension. The fourth, so far, hasn't fared much better for her. However, the future is brighter.

The earthlings are those who are native to this planet, or for those who think nobody here is native, those who have been reborn here over and over in reincarnation cycles qualify as earthlings. The liberation of this planet is actually THEIR task. However because of the dark control of this planet, they are useless to help themselves end their own slavery and are doomed to a horrible demise if they continue on as they are. This would mean the death of Gaia as well. Many are starting to wake up now because of the increasing light quotient as Gaia ascends to 5D but as of yet, not enough to disallow intervention by the Light.

The liberation of this planet, the assistance to Gaia, is NOT the Galactic Federation's responsibility, nor is it the responsibility of the Pleiadians. It is the responsibility of those who live on this planet, because they and their ancestors, created and continue to uphold this dark system. It is their responsibility, their karma, and they have to change to prevent something like this from ever happening to them again.

At the request of God, the Galactic Federation responded to the call of Gaia for help. It is voluntary assistance that they are providing. They are LIMITED by Universal law to not interfere with the awareness levels of those in the dark to even the fact that extraterrestrials even exist – for those who want to believe they're alone in the universe, the Galactic Federation will not fly a UFO up to their living room window and wave at them. They are, however, showing themselves to people who have awoken to the fact that they exist and have overcome their egotistical, fear-based selves sufficiently to be able to assist them. So the Galactic Federation are not allowed to create any undue stress to anyone on this planet. If these people want to be left alone, the GFL will comply. That's why someone who is aware of extraterrestrial life and its presence on and around our world will see ships; others who refuse to believe will not. The Galactics will simply show themselves to the ones who are aware and not to the ones who aren't, and that's a matter of frequency as well. They can meet the frequency of the ones who are aware and will not meet the frequency of the ones who aren't.

The only beings the Galactic Federation have anything to do with on this planet to date are the dark beings, who they are arresting, and the lightworkers who are either already awake or are waking up to their presence.

The Federation does have some self-interest in this “project” because of the technologies in the hands of dark alliance and the dark humans working with them and their attempts to alter the DNA of the humans on earth, which will impact life in the multiverse as well. That is their own interest: survival and the survival of the system of creation we all live within.

The Pleiadians are the next phase in the liberation of Planet Earth, and they too, are bound by the law of non-interference. Unlike the negative alien alliance, they cannot and will not interfere with anyone's free will upon this planet. The same rules apply to the Pleiadians as with the Galactic Federation in the previous paragraph. Neither the Pleiadians nor the Federation have permission to control anyone on earth. They would not do it as they would run afoul of universal law and incur karma. The fact that controlling others is done here on earth by us earthlings simply shows our lack of knowledge of Universal law and what creates karma for us.

As for the question, "When will first contact be?" first contact will occur when so many people accept the reality of extraterrestrial life that to show themselves to us will not be an impingement of our free will. The other caveat is that humanity on earth must be peaceful, otherwise ETs won't deal with us en masse. Read GESARA law. It specifies that we must become a peaceful world for our sakes and for the sake of furthering contact with benevolent extraterrestrial races.

The Negative Alien Alliance and their cohorts, the Cabal, who are all but human in many cases, DO NOT comply with universal law as the GFL and the Pleiadians do. They break universal law, technically qualifying as being the anti-God, and in breaking universal law, they breach our free will and use the humans on earth to meet their nefarious ends. Gaia is also their victim. It is because of their overrunning the planet long ago that this GFL intervention is occurring now.

The lightworkers are technically half earthling and half light being. We came here to earth to help the GFL in their work. Our coming here fulfilled the requirement that was specified that the earthlings were to help in their own liberation. That's why we're born here. Our other half, the “alien” consciousness brings in the higher qualities and energies of the higher dimensions to assist in this planet's liberation and ascension. We, being of earthling body, are more responsible for this liberation than are the Federation and the Pleiadians. It is our planet, if only for this one lifetime. We are also subject to the same rules as the earthlings are – that is of reincarnation. If we don't clear any karma we generate here in this lifetime as a lightworker, we are subject to reincarnating again to clear it.

As for the question, "Who's to blame? How did earth get taken over in the first place?" Earthlings did it. The Annunaki takeover was a long process and they tricked the earthlings, who were more evolved, more evolved than we are now, but not as evolved as say, Atlantis. Even though the earthlings had telepathic skills, the Annunaki were capable of shielding their bad intentions from our ancestors, so we got duped. We all know from the Phil Schneider story of the war at Dulce base in the 1970's against the Zeta's, that negative ETs are capable of lying with smiles on their faces; they make deals and don't honour them. As they say, no honour among thieves.
